

Event Management Company — Business Reports

Company Overview

UtsavSphere Events India is a fictional pan-India event management company serving corporate events, weddings, conferences and exhibitions. The company operates across Mumbai, Pune, Bengaluru, Delhi, Hyderabad, Goa and Jaipur.

Q1–Q3 Business Highlights

Corporate and wedding events generated the strongest revenue contribution. Destination weddings in Jaipur and Goa achieved the highest satisfaction scores. Mumbai and Bengaluru remained important corporate-event markets. Exhibition events generated high absolute revenue but generally showed lower satisfaction and lead-conversion rates than weddings.

Key Business Observations

Destination weddings had satisfaction scores above 95% in most cases, but they also required higher event budgets and larger vendor coordination. Exhibition events attracted large attendee volumes, often above 1,000 participants, but satisfaction was comparatively lower. Corporate events showed a balanced combination of revenue, satisfaction and repeat-client potential.

Management Questions for AI Analyst

The AI Analyst should be able to answer questions such as: Which city generates the highest revenue? Which event type has the best satisfaction? Which clients appear repeatedly? Which events have high revenue but low satisfaction? Which vendors have the strongest performance? Where should the company focus its expansion?

Business Definitions

Revenue is the event contract value in INR. Satisfaction is the post-event client satisfaction percentage. Lead conversion is the percentage of qualified leads converted into confirmed events. Event type includes Corporate, Wedding, Conference and Exhibition.
